

## Welcome to BAS and our new online tools!

The *BAShealth.com* website was recently updated to provide a fresh look and easier access to the information you need to manage your benefits.

Whether you are looking for general information about BAS or you need to login to access detailed information in our secure portal, our new website has all the information you need.

The *BAS portal* provides access to your benefits in a secure environment. By logging in, you can see claims history, deductibles, out-of-pocket amounts met, and can navigate to other benefit management tools, such as flex administration. Everything is laid out in a simple to use format.

The *BAShealth app* connects you to key information regarding your benefits through your smartphone. Similar to the information in the BAS portal, you also have access to your personal ID card and can email the card directly from your phone. Anytime you have a question, you can click *Contact Us* to be connected to BAS.

The *BAShealth app* and *MyFlex app* are **FREE** and available to download at the App Store or Google play.

The new *MyFlex app* allows you to check your flexible spending account balance, take pictures of receipts and file claims - all on your smartphone. No more time wasted on mailing or faxing receipts. The MyFlex app makes it simple and easy to maintain your flex account.
